by Nathalie Beauvois

1) Draw a half circle and leave off a pizza slice like shape
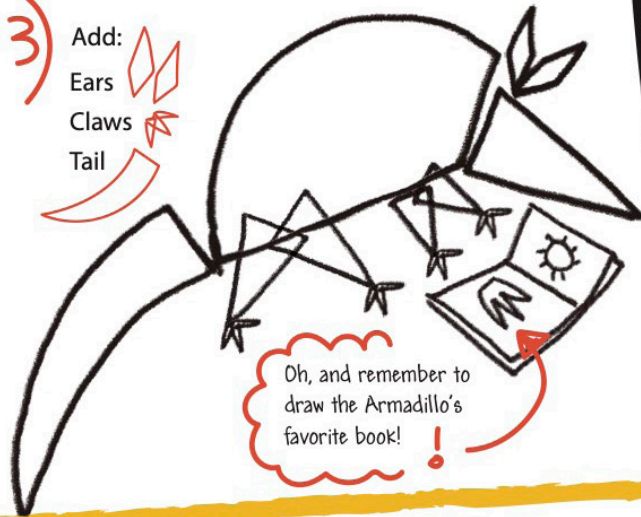

2) Add several sized triangles to make its:
* Rear legs
* Front legs
* Head

3) Add:
Ears
Claws
Tail

Oh, and remember to draw the Armadillo's favorite book!

4) Finally, you can have fun doodling all types of lines to make the scales and different textures of its body!

Now that you are quite an expert in shapes and lines, you can make your armadillo even happier by framing him in a nice place!
